

Rana Hassan

Full-Stack Developer | AI & Digital Innovation
ranaaa.hasan236@gmail.com | [+961 81039584](tel:+96181039584)

Professional Summary

Computer Science graduate and Full-Stack Developer with hands-on experience building AI-powered platforms, full-stack web applications, dashboards, REST APIs, and data-driven digital solutions. Experienced in React, Next.js, Laravel, Node.js, Express.js, FastAPI, Python, JavaScript, MySQL/MongoDB, API integration, and UI/API testing.

Practical AI implementation experience through academic coursework, AI-focused training, and hands-on project development in Machine Learning, Natural Language Processing, local AI workflows, LLM-based applications, PDF-based AI features, AI service integration, Knowledge Graphs, and digital innovation solutions.

Education

Lebanese International University - Saida, Lebanon

Oct 2022 - Jun 2026

Bachelor's Degree in Computer Science

Relevant coursework: Machine Learning, Natural Language Processing, Web Development, Mobile Application Development, Data Structures, Information Systems Development.

Alwan Center - Saida, Lebanon

Jul 2024 - Dec 2024

Full-Stack Web Development Training

- Built and deployed full-stack web applications using MERN and Next.js technologies.
- Designed RESTful APIs using Express.js and Next.js to support backend functionality and integration.
- Developed dashboards and informative web solutions for fintech and multi-role use cases.
- Applied responsive UI/UX practices, structured code organization, and SOLID principles.

Professional Experience

Frontend Developer Intern - Techryt, Remote, United States

Aug 2025 - Dec 2025

- Developed responsive websites and interactive digital interfaces using React, Next.js, CSS, and Tailwind CSS.
- Built reusable frontend components, modern layouts, animations, and user-friendly browser-based experiences.
- Tested and debugged UI behavior, forms, responsive layouts, and user workflows across screen sizes.
- Used Jira, Git, GitHub, Agile workflows, and code reviews to support collaborative development and documentation.

Freelance / Independent Full-Stack Web Developer

Dec 2024 - Jun 2026

- Independently developed full-stack web applications, e-commerce websites, learning platforms, dashboards, and user-focused digital systems.
- Implemented responsive interfaces, authentication, CRUD workflows, database features, REST APIs, and backend integration.
- Built product browsing, file upload, saved data, dynamic content, forms, reports, and admin/student-style dashboards.
- Tested APIs and user flows with Postman and UI/API testing, improving validation, loading states, and error handling.

AI Summer Sprint Bootcamp - Near East University & SprintOS, Remote

Jul 2025

- Completed hands-on AI training covering the AI lifecycle, Machine Learning, NLP workflows, deep learning basics, CNNs, Knowledge Graphs, AI agents, n8n automation, LangGraph, AI in SDLC, testing, and version control.
- Worked in a team on AI-powered product concepts, model integration, documentation, deployment preparation, and final pitch delivery.
- Applied digital innovation, automation concepts, and data-driven problem-solving to practical AI solution design.

Full-Stack Developer Intern - Prodigy InfoTech, Remote, Mumbai

Sep 2024

- Developed full-stack web applications using the MERN stack: MongoDB, Express.js, React, and Node.js.
- Integrated frontend interfaces with REST API endpoints and backend logic.
- Tested React UI flows, forms, API integrations, responsive behavior, and endpoint behavior using Postman.

Project Experience

StudyFlow - AI Study Platform

Project Link: <https://github.com/32230466-Rana/studyflow-showcase>

- Built a full-stack AI-powered learning platform that helps students upload study materials and receive AI-generated summaries, quizzes, Ask-PDF support, weak-topic tracking, and personalized study recommendations.
- Developed a user-centered digital learning solution using React frontend pages, Laravel APIs, MySQL database features, and FastAPI AI services.
- Implemented local AI workflows using Ollama/local LLMs, PDF-based AI features, prompt workflows, and AI service endpoints.
- Integrated AI endpoints for summary generation, quiz creation, Ask-PDF chat, recommendations, saved summaries, and study planning features.
- Tested file upload, AI responses, API states, validation, loading states, saved results, and error handling using Postman and UI/API testing.

Fashion & Jewelry E-Commerce Website

- Developed a responsive online shopping website for clothes and jewelry, inspired by modern fashion e-commerce platforms, allowing users to browse products, view details, add items to cart, and complete a simple user-friendly shopping flow.

- Built category layouts, reusable components, animations, responsive UI, Laravel/React integration, MySQL-backed features, RESTful API workflows, and UI/API testing.

Technologies: React, Laravel, RESTful API, CSS, MySQL, Postman, API Testing, UI Testing, animations, responsive design.

Technical Skills

Programming Languages: JavaScript, Python, Java, PHP

Frontend: HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Bootstrap, Sass, Responsive Design, UI/UX Implementation, Animations

Mobile & Responsive Development: Mobile Application Development, React Native & Flutter fundamentals, Mobile-First Responsive UI, Responsive Web Apps, Cross-Screen Testing.

Backend: Laravel, FastAPI, Node.js, Express.js, REST APIs, Authentication, CRUD, MySQL, MongoDB

AI / Data / Innovation: Artificial Intelligence, Machine Learning, Natural Language Processing, Local AI, Ollama/local LLMs, FastAPI AI Services, AI API Integration, PDF-based AI Features, Knowledge Graphs, AI Agents, Data Analytics

Testing & Tools: Postman, API Testing, UI Testing, Jest, React Testing Library, Cypress, Debugging, Cross-Browser Testing

Workflow: Git, GitHub, Jira, Agile/Scrum, VS Code, Figma

Languages

Arabic: Native | English: Advanced
