Professional Summary

Computer Science graduate and Full-Stack Developer with hands-on experience building responsive web applications, AI-powered platforms, dashboards, and REST APIs. Skilled in React, Next.js, TypeScript, Laravel, Node.js, FastAPI, MySQL, MongoDB, API integration, testing, and deployment. Experienced in authentication, AI service integration, validation, and user-focused full-stack development.

Education

Lebanese International University - Saida, Lebanon

Oct 2022 - Jun 2026

Bachelor's Degree in Computer Science

Relevant coursework: Machine Learning, Natural Language Processing, Web Development, Mobile Application Development, Data Structures, Information Systems Development.

Alwan Center - Saida, Lebanon

Jul 2024 - Dec 2024

Full-Stack Web Development Training

- Built and deployed full-stack web applications using MERN and Next.js technologies.
- Designed RESTful APIs using Express.js and Next.js to support backend functionality and integration.
- Developed dashboards and informative web solutions for fintech and multi-role use cases.
- Applied responsive UI/UX practices, structured code organization, and SOLID principles.

Professional Experience

Frontend Developer Intern - Techryt, Remote (United States)

Aug 2025 - Dec 2025

- Developed responsive web applications and interactive digital interfaces using React, Next.js, CSS, and Tailwind CSS.
- Built reusable frontend components, modern layouts, animations, and user-friendly browser-based experiences.
- Tested and debugged UI behavior, forms, responsive layouts, and user workflows across different screen sizes.
- Used Jira, Git, GitHub, Agile workflows, and code reviews to support collaborative development and documentation.

Full-Stack Developer Intern - Prodigy InfoTech, Remote (India)

Sep 2024

- Developed full-stack web applications using MongoDB, Express.js, React, and Node.js.
- Integrated responsive frontend interfaces with REST API endpoints and backend logic.
- Tested UI flows, forms, API integrations, responsive behavior, and endpoint functionality using Postman.

Freelance / Independent Full-Stack Web Developer

Dec 2024 - Jun 2026

- Independently developed full-stack web applications, e-commerce websites, AI-powered learning platforms, dashboards, and user-focused digital systems.
- Implemented responsive interfaces, authentication, CRUD workflows, database features, REST APIs, and frontend-backend integration.
- Built product browsing, file upload, saved-data features, dynamic content, forms, reports, and admin/student dashboards.
- Tested APIs and user workflows using Postman and UI/API testing, improving validation, loading states, and error handling.

Project Experience

StudyFlow - AI Study Platform

Project Link: <https://github.com/32230466-Rana/studyflow-showcase>

- Developed a full-stack AI-powered learning platform supporting document upload, AI summaries, quiz generation, Ask-PDF chat, weak-topic tracking, recommendations, and study planning.
- Built the frontend with React, backend APIs with Laravel, database features with MySQL, and AI services with FastAPI.
- Integrated local AI workflows using Ollama and local LLMs for PDF-based AI features and prompt-driven services.
- Tested file uploads, AI responses, API states, validation, loading states, saved results, and error handling using Postman and UI/API testing.

Tech Stack: React, Laravel, FastAPI, MySQL, Ollama, REST APIs, Postman

Fashion & Jewelry E-Commerce Website

- Developed a responsive online shopping website for clothes and jewelry with product browsing, product details, shopping-cart functionality, and a user-friendly shopping flow.
- Built reusable category layouts, responsive components, animations, Laravel and React integration, MySQL-backed features, and REST API workflows.
- Tested responsive layouts, API integrations, forms, and user flows using Postman and UI testing.

Tech Stack: React, Laravel, MySQL, REST APIs, CSS, Postman

Developer Portfolio - React & TypeScript

Live Demo: rana-hassan-portfolio-hdsn.vercel.app/

GitHub: github.com/32230466-Rana/rana-hassan-portfolio

- Built a modern responsive developer portfolio showcasing projects, skills, experience, certifications, services, and contact information.
- Migrated the React and Vite project to TypeScript using typed components, props, project data, skills data, and contact-form state.
- Implemented typed API handling, validation, loading and error states, and TanStack Query where applicable.
- Added GitHub Actions build verification and deployed the production website on Vercel.

Tech Stack: React, TypeScript, Vite, TanStack Query, GitHub Actions, Vercel

Training & Certifications

AI Summer Sprint Bootcamp - Near East University & SprintOS, Remote

Jul 2025

- Completed hands-on AI training covering the AI lifecycle, Machine Learning, NLP, deep-learning fundamentals, CNNs, Knowledge Graphs, AI agents, n8n automation, LangGraph, AI in the SDLC, testing, and version control.
- Collaborated on AI-powered product concepts, model integration, documentation, deployment preparation, and final pitch delivery.
- Applied digital innovation, automation concepts, and data-driven problem-solving to practical AI solution design.

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, Java, PHP

Frontend: HTML, CSS, React, Next.js, TanStack Query, Tailwind CSS, Bootstrap, Sass, Responsive Design, UI/UX Implementation, Animations

Backend & APIs: Laravel, FastAPI, Node.js, Express.js, REST APIs, Laravel Sanctum, Authentication, Role-Based Access, Validation

Databases & Querying: MySQL, PostgreSQL, MongoDB, SQL, Database Design, CRUD, Queries, Joins

Testing & Tools: Postman, API Testing, UI Testing, Debugging, Cross-Browser Testing

Deployment & Workflow: Vercel, GitHub Actions, CI/CD Fundamentals, Docker, Git, GitHub, Jira, Agile/Scrum, VS Code, Figma

Languages

Arabic: Native | English: Advanced
